## (54) DECORATIVE MATERIAL

(57)Abstract:

PROBLEM TO BE SOLVED: To change a looking way of a pattern by a looking angle.

SOLUTION: A bright pattern layer 1 comprising a binder resin containing a silver type or iridescent color type titanium coated mica powder is patternwise formed on a colored opaque base material B. The patterns shown by the bright pattern layer 1 change in a looking way by a looking angle, for example, look bright from a certain angle but look dark from a separate angle. When the bright pattern layer 1 is formed by silk screen printing, a change of a looking way can be made large.

## LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's]
